Student Absences

Students are expected to attend class each time it meets. When it is necessary that a student miss class due to serious illness, emergency or unavoidable circumstances, the Dean of Students Office may be able to help.

The Dean of Students Office will verify information and notify the student's instructors of the need for the absence and assist the student with other referrals.

Families are welcome to contact the Dean of Students Office about an absence, however, students are expected to contact their instructors to arrange for completion of assignments.
