AGENCY’S DISCUSSION AND ANALYSIS

Winthrop University offers quality and access while promoting individual achievement and the greater good, recognizing that higher education serves three primary, interrelated purposes:

- To fuel the economic engines of South Carolina and of the nation through workforce development and entrepreneurship;
- To prepare individuals for democratic citizenship and social responsibility through exposure to the liberal arts, diverse people and experiences, and challenges that develop higher levels of intellectual, ethical, and moral reasoning; and
- To promote professional success and social mobility by recognizing the fundamental connection between quality of education and equality of opportunity.

Winthrop University engages in continuous, institution-wide, research-based planning and evaluation that includes senior and mid-level leadership in academic, administrative, and student support service units. Winthrop’s annual planning cycle is synchronized with South Carolina’s Fiscal Year, July 1 through June 30.

Winthrop’s 2016-17 State Accountability Report provides an overview of performance and achievements related to meeting institutional goals, complying with state and federal regulations, fulfilling regional accreditation standards ([SACSCOC](#)), and supporting [South Carolina’s Statewide Enterprise Strategic Objectives](#), specifically Objective #1 – Education, Training, and Human Development. Examples of the University’s 2016-17 achievements span all campus divisions and are contextualized by the five goals of [The Winthrop Plan](#), the institution’s strategic plan.

Goal 1: Support inclusive excellence by expanding our impact on students and our communities through enrollment growth and increases in retention and graduation rates. (Supports South Carolina Statewide Enterprise Strategic *Objective #1 – Education, Training, and Human Development* and *Objective #4 – Public Infrastructure and Economic Development*.)

- Winthrop ranked 8th among Southern public universities in the [U.S. News & World Report’s](#) edition of America’s Best Colleges. An average first-year student retention rate increase of one percentage point (74% to 75%) and an average 6-year graduation rate increase of three percentage points (52% to 55%) contributed to this ranking.
- Fall 2016 [student enrollment](#) reflected a 1.3 percent increase over fall 2015 enrollment, representing the second straight year that the institution experienced incremental enrollment growth.
- Education Trust’s national report, “A Look at Black Student Success: Identifying Top- and Bottom-Performing Institutions,” listed Winthrop University as #2 in top-performing institutions for graduating [minority students](#) in the 2012, 2013, and 2014 academic years. Winthrop’s black

Risk Assessment and Mitigation Strategies

A failure of Winthrop University to accomplish its mission and goals could **negatively impact the student educational experience and potentially weaken the pool of qualified candidates that support the workforce of the State of South Carolina**. Given that 91% of Winthrop undergraduates are from South Carolina and approximately 41% of Winthrop undergraduates are eligible for federal Pell grants, a diminished educational experience would negatively impact South Carolina’s historically underserved populations, the very citizens the State of South Carolina identifies as needing the most support to advance their education in order to compete for employment opportunities that provide a living wage.

The University employs mitigating strategies focused on enhancing operational efficiency, managing costs, sustaining effectiveness, emphasizing forward-thinking, and remaining current with education trends. These strategies are supported by the following efforts:

- The development ([2015-16](#)) and implementation ([2016-17](#)) of the Winthrop Plan has put the institution on a strategic trajectory. The plan includes initiatives to drive enrollment, retention, student success, diversity, and fundraising. Resource allocations and fundraising decisions are determined based on alignment with the strategic plan and the ability to help the institution realize its strategic goals.
- Winthrop University remains compliant with standards of the institution’s regional accrediting body, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). In July 2017, [SACSCOC](#) approved the University’s Fifth-Year Interim Report and the Quality Enhancement Plan Impact Report, with no request for additional reporting. Accreditation by SACSCOC signifies that the institution has a mission appropriate to higher education; has resources, programs, and services sufficient to accomplish and sustain its mission; maintains clearly specified educational objectives that are consistent with its mission and appropriate to the degrees offered; and assesses its achievement of stated objectives.
- Winthrop University retains [program-specific accreditation](#) from professional academic bodies for 18 academic programs, thus ensuring the quality of its educational programs. The institution has traditionally sought and received national accreditation for degree programs that maintain programmatic accreditation standards.

Supportive actions by the State that could help to mitigate a negatively impact on the student educational experience include:

- Restore the proportion of state appropriations to Winthrop University to pre-2008 recession levels. This action would enable Winthrop to minimize fiscal impact upon students relative to tuition, fees, room, and board, thereby supporting Winthrop’s goals to increase access, degree attainment, and inclusive excellence in learning experiences for all students.
- Fully fund salary increases for state employees. Cost of living increases that are mandated by the General Assembly, but not fully funded create significant challenges in balancing the

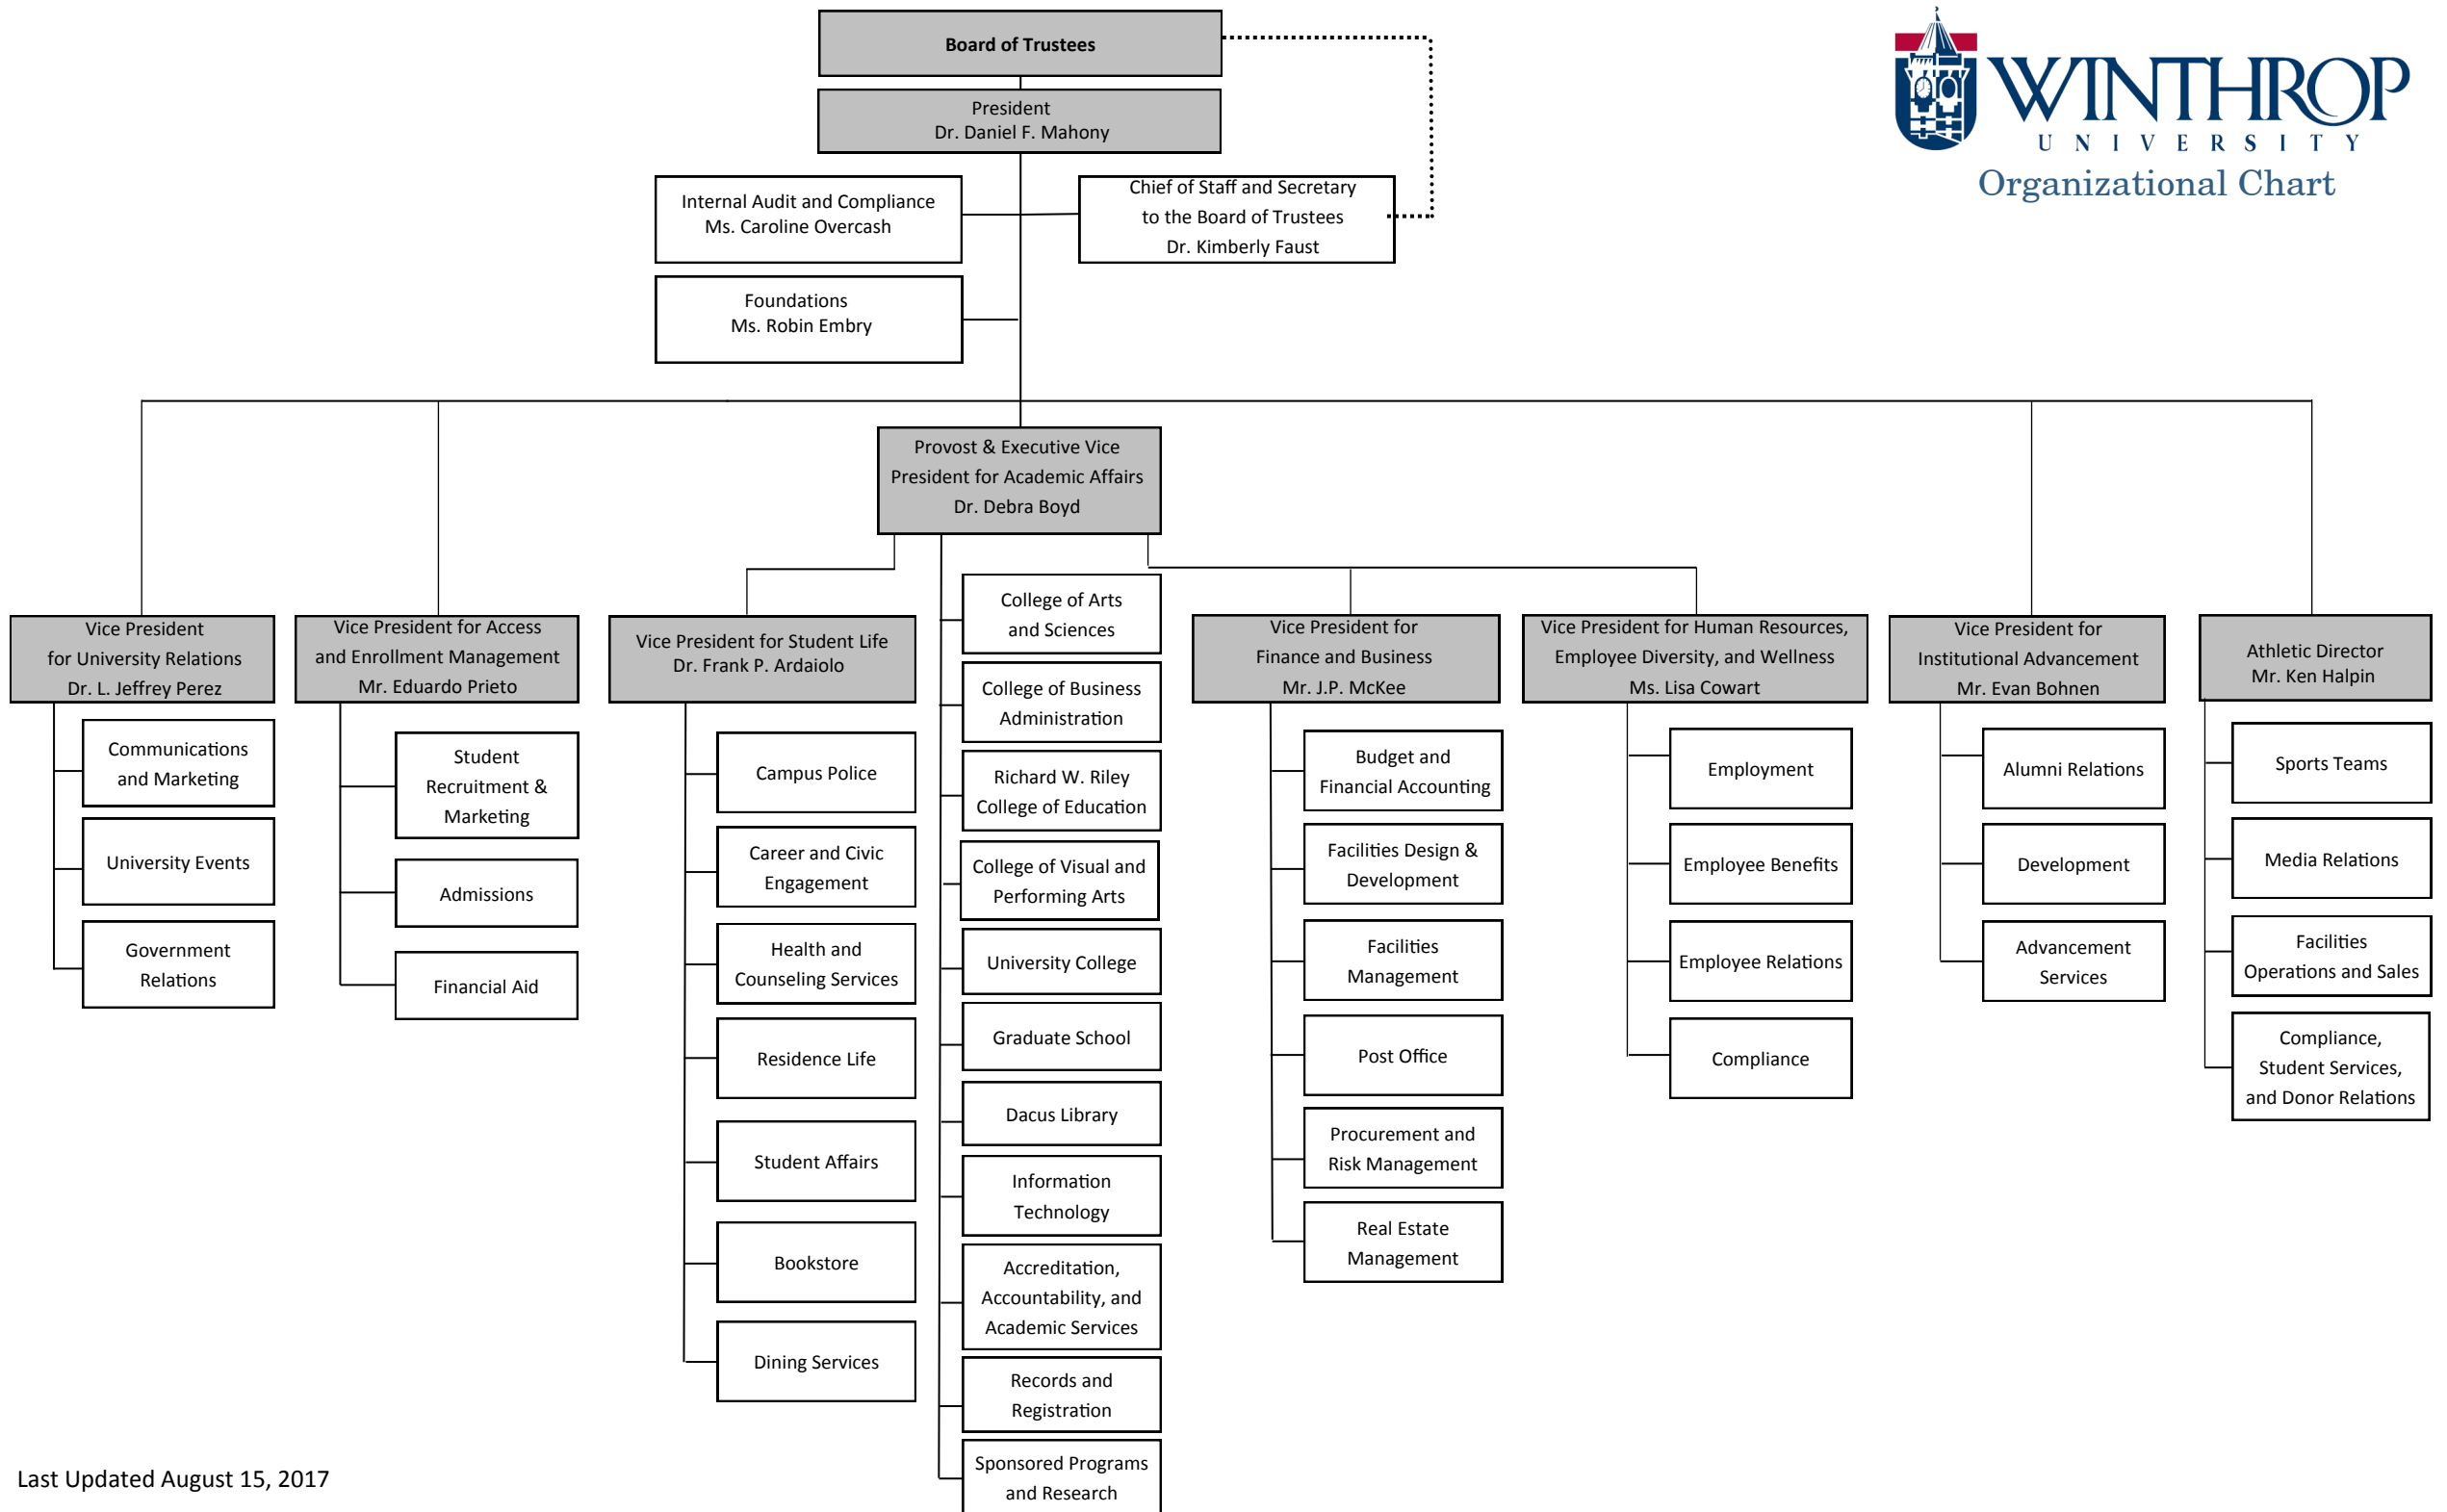

AGENCY NAME:	Winthrop University		
AGENCY CODE:	H47	SECTION:	021

institution's budget. The increased budgetary strain on the University has the potential to impact the quality of the student educational experience.

- Reduce institutional labor costs by eliminating reporting obligations that involve redundancy across state agencies.

With the exception of the disclosure requirements (pertaining to prospective and enrolled students) in 34 CFR 668.412, all of the provisions in the GE regulations took effect July 1, 2015.
