

EDUCATIONAL STUDIES, ELEMENTARY EDUCATION GUIDED PATHWAY

Earn your Bachelor of Science in Educational Studies- Elementary Education. The educational studies program prepares undergraduate students to be effective community leaders and educators. With a focus on culturally responsive practices, the program provides opportunities for self-reflection, communication, an asset-focused mindset, and examination of societal and cultural factors that impact student achievement, the role of literacy in learner development and methods to differentiate instruction to engage and challenge diverse learners. While this degree does not provide an opportunity for teacher certification, it could be a pathway to the Master of Arts in Teaching (M.A.T.) degree for students who eventually want to earn certification at the graduate level.
