

ENTREPRENEURSHIP GUIDED PATHWAY

A Bachelor of Science in Business Administration with a concentration in entrepreneurship equips our diverse student population with the skills and confidence to start businesses and lead companies. Our unique program prepares students for careers as autonomous entrepreneurs who are innovative, imaginative and creative: innovative to take existing systems and ideas and improve them, imaginative to see what does not exist, and creative to execute ideas and make them real. The entrepreneurship program is designed to help students think outside the box, take their entrepreneurial ideas and transform them into opportunities.
