

EDUCATIONAL STUDIES, MIDDLE LEVEL EDUCATION, MATH, GUIDED PATHWAY

Earn an Associate of Arts from Central Piedmont Community College, and transfer to Winthrop University to earn your Bachelor of Science in educational studies, middle level education — mathematics. The educational studies program prepares undergraduate students to be effective community leaders, and educators. Students in this concentration will take an introduction to the middle school and courses in discrete mathematics, algebra or calculus, and statistics. While this degree does not provide an opportunity for teacher certification, it could be a pathway to the Master of Arts in Teaching (M.A.T.) degree for students who eventually want to earn certification at the graduate level.
