Director's Note

Based on the hottest trends in digital technology, this issue will provide recommendations on how technology can be used to connect us together.

Holiday greetings from the students and faculty in Winthrop University's Master's in Learning Design and Technology! And welcome to our annual Holiday Gift Guide! You'll find tools, apps, subscription services, and more for the learning and development professional in your life.

The 2022 Holiday Gift Guide was researched, designed, and developed by the class of 2023 Learning Design and Technology Graduate students! Our students have done the hard work of identifying the hottest trends in technology and learning and have prepared a veritable smorgasbord of options for you! This year's theme is "Technology that Connects Us" or "Tech Connect" for short.

If you're interested in learning more about our program or studying with us, feel free to contact me at jonesmg@winthrop.edu or use this form to request more information: <https://gradschool.winthrop.edu/register/ldt>. We offer a 10 class 100% online program, a tuition discount, the opportunity to learn the skills you need to become a learning and development professional in K12, higher ed, corporate, and more. And now, on to the good stuff!

ABOUT THE GUIDE

WHO WE ARE

We are the **2023 cohort** of the Learning Design and Technology graduate program at Winthrop University in Rock Hill, SC, USA. We are self-named the **Cognitive Carrier Pigeons**, for no other reason other than the name made us all laugh.

WHAT WE DO

Based on the hottest trends in digital technology, the 2022 issue of the Learning Design & Technology Holiday Gift Guide features **recommendations** on how technology can be used to connect us together.

PRICING LEVELS

Frugal Guru - Items that are free

Low Roller - Items ranging from \$0 - \$25

Average Joe - Items ranging from \$25 - \$100

High Roller - Items ranging from \$100 to ???

CCP APPROVAL

The Cognitive Carrier Pigeon Approved sticker, or CCP Sticker, is shown beside the "**most liked**" items -- products that our cohort owns, uses, or highly recommends.

THE COGNITIVE CARRIER PIGEONS CLASS OF 2023

Looking for a change? Join us!

Winthrop's program in [Learning Design and Technology](#) prepares people to use technology to solve problems. We prepare people to design, develop, and evaluate learning and performance support materials for face to face classes, online classes, and anything in between.

Our program prepares learning professionals in K-12, higher education, corporate learning development offices and more. We prepare you for instructional design and assessment, instructional development, multimedia design and development, eLearning, performance technology and support, and more.

We welcome professional educators in K-12 and other professional education environments such as corporate learning and development and higher education. We are an excellent program for professional educators in K-12 schools, but we don't require a background in education. This degree will provide you with the professional preparation you need to succeed in the growing field of Learning Design and Technology.
