

WINTHROP UNIVERSITY MISSION STATEMENT

Winthrop University provides personalized and challenging undergraduate, graduate, and continuing professional education programs of national caliber within a context dedicated to public service to the State of South Carolina. All eligible bachelor's, master's and specialist degrees in the liberal arts and sciences, education, business and the visual and performing arts are nationally accredited – part of the University's commitment to be among the very best institutions of its kind in the nation.

Building on its origins as a women's college, the Winthrop University of the 21st century is achieving national recognition as a competitive and distinctive, co-educational, public, residential comprehensive teaching institution.

Winthrop enrolls an achievement-oriented, culturally diverse and socially responsible student body of 6,000 students and will remain a medium-sized comprehensive teaching university for the foreseeable future. The University recruits South Carolina's best students as well as highly qualified students from beyond the state whose presence adds diversity and enrichment to the campus and state. Winthrop prides itself on being an institution of choice for groups traditionally under-represented on the college campus.

Winthrop's historic campus, located in a dynamic city within a major metropolitan area, provides a contemporary and supportive environment that promotes student learning and development. Winthrop has a diverse and able faculty and professional staff of national caliber and supports their work as effective teachers, scholars, researchers, practitioners, and creative artists. Through this talented group, Winthrop students acquire and develop knowledge, skills, and values that enrich their lives and prepare them to meet the needs and challenges of the contemporary world, including the ability to communicate effectively, appreciate diversity, work collaboratively, synthesize knowledge, and adapt to change. Ongoing assessment of programs and services ensures both that all academic programs challenge students at their highest level of ability and that the library, instructional technology and other academic service areas support courses of study that are consonant with current methods and knowledge. As a result, Winthrop graduates are eminently well prepared to assume successful careers in business, industry, government, education, the arts, and human services, as well as to enter the most competitive graduate or professional schools.

DEFINITIONS FOR FINANCIAL INFORMATION

The following schedules provides information taken from the IPEDS reports submitted by Winthrop for the four years 1995-1996 through 1999-2000. Information is grouped by type of funding and program.

Provided on the expenditure schedule is the percentage each program in the Educational and General Operations is (E&G) of total Educational and General Fund Revenue. If the total percentage of E&G expenditures exceeds 100%, this is an indication that revenue other than E&G revenue was used to support E&G activities.

Funding is summarized by Unrestricted and Restricted funds. Restricted funds are those funds received for specific purposes and not available to be used in general operations of the University.

Program descriptions are as follows:

INSTRUCTION: Expenditures for academic, vocational, remedial, and technical instruction.

LIBRARY: Expenditures for organized activities that directly support the operation catalogued or otherwise classified collection.

ACADEMIC SUPPORT: Expenditures to provide support services for instruction, services that directly assist the academic function, media support, academic administration, and course/curriculum development.

RESEARCH: Expenditures for activities specifically organized to produce research outcomes, whether commissioned by an agency external to the University or separately budgeted by the University.

PUBLIC SERVICE: Expenditures in providing noninstructional services beneficial to individuals and groups external to the institution.

STUDENT SERVICES: Expenditures for the office of admission, registrar and those activities whose primary purpose is to contribute to the student's emotional and physical well-being and to his or her intellectual, cultural and social development outside the context of the formal instruction program.

INSTITUTIONAL SUPPORT: Expenditures for the following categories: Central executive-level activities concerned with management and long-range planning of the entire institution; fiscal operations including accounting and payroll; administrative data processing; space management; employee personnel and records; logistical activities that provide procurement, storerooms, safety, security, printing and transportation services; support services to faculty and staff that are not operated as auxiliary enterprises; and community and alumni relations, including development and funding raising.

OPERATIONS AND MAINTENANCE OF PLANT: Expenditures of current operating funds for the operation and maintenance of physical plant follows: Physical plant administration; building maintenance; custodial services; utilities; landscaping and ground maintenance; and major repairs and renovations.

SCHOLARSHIPS AND FELLOWSHIPS: Expenditures for scholarships and fellowships in the form of out-right grants to students selected by the institution and financed from current funds, restricted or unrestricted.

MANDATORY TRANSFERS: Transfers from current fund groups to other fund groups arising from binding legal agreements related to the financing of educational plant facilities and grant agreements with agencies of the federal government, donors and other organizations to match gifts and grants to loan and other funds.

NONMANDATORY TRANSFERS: Transfer from the current fund groups for purposed such as additions to loan funds, general or specific plant additions, voluntary renewals and replacements of plant and prepayments on debt principal.

AUXILIARY OPERATIONS: An entity that exists to furnish goods and services to students, faculty or staff and that charges as fee directly related to, although no necessarily equal to, the cost of the goods or services. Examples of auxiliary operations at Winthrop are as follows: Housing, Cafeteria and health center, vending operations and laundry, and print shop.

ACADEMIC COMPUTING

Winthrop University Academic Computing supports the instructional and research functions of the University. Within the Division of Computing and Information Technology, Academic Computing provides access to diverse computing resources. These resources include UNIX and Linux servers and workstations, Windows 2000 microcomputer networks, laboratories with microcomputers, and access to OpenVMS clustered AlphaServers. Over 20 computer laboratories supporting PC, Macintosh, Linux, and UNIX systems are available on campus for open access and instructional needs.

Winthrop's host computers have an assortment of programming languages such as Ada, BASIC, C, C++, COBOL, Fortran, Java, LISP, and Pascal. Microcomputer networks and laboratories provide computing resources for support of instructional and research applications. Typical applications include desktop publishing, database management, spreadsheet analysis, graphics, communications, word processing, statistical analysis, and mathematical computation. Specific applications include Microsoft Office Premium, Frontpage, Internet Explorer, PC-SAS, SPSS, Mathematica, Microsoft Visual Studio, and eXcursion.

All main campus buildings and residence halls are connected to the campus network and Internet through fiber optic cable. Students are provided with consolidated computing services including web based email, central server storage space, and personal web pages.

The Academic Computing Center also provides computer access for visually impaired students, as well as Braille printing services.

General operational hours for Academic Computing labs are posted at:
http://www.winthrop.edu/acc/docs/Lab_Info.asp

For additional information on Academic Computing, visit <http://www.winthrop.edu/acc> or call 803/323-3491.

DISTANCE LEARNING

Winthrop University is a leader in instructional technology, featuring the Distance Education Classroom in the College of Business Thurmond Building. Utilizing a T1 digital configuration and state-of-the-art fiber optic technology through the BEACON (Business, Education, and Community Online Network) system, classes are fully interactive between Winthrop and the remote sites. Students and teachers communicate with each other simultaneously in classrooms outfitted with robotic cameras, TV monitors, desk microphones, and a fully equipped television control room.

MBA candidates at Coastal Carolina University in Conway, SC, are online with Winthrop to take advantage of this learning opportunity. Winthrop's MBA degree is the same AACSB accredited program that has enjoyed more than 20 years of success serving the Charlotte Metrolina region.

In addition, credit classes are being transmitted to York Technical College in Rock Hill on the BEACON network. Dual credit courses are also offered using both the T1 and fiber optic technologies to local area high schools. These students can earn college credit, as well as fulfill their high school graduation requirements.
