**Active counts represent "alumni of record," which is the number of living individuals for whom the university believes it has a valid contact information (address, phone, email, etc.).*

Missing (lost) and deceased constituents are not "alumni of record." Individuals who have requested not to be contacted or individuals marked inactive are included, if the university believes it has valid contact information.

For the purposes of this report, "alumni of record" includes individuals who have received an undergraduate or graduate degree from the institution and former students who were regularly enrolled for at least one year but received no degree.
