Dear Colleagues,
I hope you are enjoying your summer respite.

I met today with Chelsea Havner, the new manager of the Winthrop Bookstore, which is now managed by Barnes & Noble. Chelsea will be making the rounds at the beginning of the academic year to meet faculty and to become part of the Winthrop community. I’ve invited her to a future Faculty Assembly meeting so she can hear from the largest College on campus. In the meantime, I’m sure she would be happy to meet you if you drop by and introduce yourself.

Two quick announcements from the Bookstore:

- **Faculty Enlight and Book Orders:** This service permits you to order texts online (https://www.facultyenlight.com/). It stores past orders and permits you to read reviews from other faculty members across the country. Brochures with screenshots and detailed information about this service are on their way to department offices.

  Faculty Enlight is one option to place your textbook orders. You may also call or Email the bookstore with your order. We respectfully ask that you submit Summer Session D and Fall semester book orders as soon as possible.

- **Course Packs:** While the Bookstore did receive records of fall textbook orders from their predecessors, they do not have course pack information. If you are using a course pack, please submit the information to the Bookstore asap so they can work out the copyrights and arrange for production prior to Fall semester.

Thank you,
Karen
