

## ADDITIONAL GEOGRAPHY PROGRAM RESOURCES

Like many disciplines, Geography has national associations that one can become a member of. These links will open a new page.

- American Association of Geographers (AAG) - [www.aag.org](http://www.aag.org)
- Royal Geographical Society (IBG) - [www.rgs.org](http://www.rgs.org)

In addition, there are several excellent government based websites for information related to and about the geography of the nation, state, and local community.

- United States Census Bureau - [www.census.gov](http://www.census.gov)
- United States Geological Survey - [www.usgs.gov](http://www.usgs.gov)
- York County - [www.yorkcountygov.com](http://www.yorkcountygov.com)

If you require data for a particular area, you may want to consider these sites:

- SC OneMap - <http://mySCmap.sc.gov>
- EROS Data Center - <http://eros.usgs.gov>

If you are looking for maps, you may look at these sites:

- National Park Service Maps - <http://www.nps.gov/carto>
- Worldmapper - <http://www.sasi.group.shef.ac.uk/worldmapper/index.html>
- USGS Topo Maps @ the Internet Archive - [http://www.archive.org/details/maps\\_usgs](http://www.archive.org/details/maps_usgs)

Other sites with interesting Geography content:

- National Geographic - [www.nationalgeographic.com](http://www.nationalgeographic.com)
- Public Broadcasting Service - [www.pbs.org](http://www.pbs.org)
- Guide to Famous American Landmarks for kids - [www.areavibes.com/library/famous-american-landmarks-kids](http://www.areavibes.com/library/famous-american-landmarks-kids)
