

The Department of Human Nutrition Presents

5 STEPS TO BECOMING A REGISTERED DIETITIAN AS A FIRST TIME UNDERGRADUATE STUDENT

at Winthrop University

1

Apply to the Undergraduate Program

As an ACEND accredited program, you can declare a major in Human Nutrition with a concentration in Dietetics to meet all of the necessary undergraduate requirements.

2

Complete the Undergraduate Coursework

Successfully graduating with a degree in human nutrition with a concentration in dietetics will get you both a Bachelor's Degree and DPD Verification Statement.

3

Complete a Master's Degree

You now need a Master's degree to become an RD. At Winthrop, you can complete an MS in Human Nutrition or a related field through our combined MS/DI program.

4

Complete a Dietetic Internship

The Dietetic Internship (DI) is the clinical experience required to sit for the RD exam. At Winthrop, we offer a combined MS/DI so you can finish both in just 2 years.

5

Pass the RD Exam & Get Licensed!

Of course, you'll need to take (and pass) the RD exam, and then you can apply for licensure in the state(s) that you would like to be able to practice in.
