This plan assumes that students will begin at the level of 201. If a student begins at a level lower than 201, completion of the degree in 8 semesters is unlikely.

This plan totals 124 credits. Students may request 8 credits for French 101 and 102, after receiving a grade of B or higher in French 201 or another French course at the 200, 300 or 400 level. These credits may be used to reduce the number of lower-division electives needed for graduation.

* CRTW 201 should be taken sometime during the Sophomore year. This could be either fall or spring, depending upon course availability, major program requirements, and/or study abroad placement options.

**When selecting electives, students need to be sure that they have taken 40 credits above 299. These electives could be in French or other courses at the 300-level or higher.
