AGAPE Senior – Design/Creative Internship (Rock Hill, SC)

We are in need of a Graphics Design student (or student with design skills) to format our Job Manuals for Agape Senior. We have already produced quite a few with the same basic and consistent format, so the process is in place. We can be very flexible with days and hours, and will work with the student in anyway needed – just looking for the “right” student for this. This position is also open to some office hours and some work from home hours as needed.

The intern will be trained by an individual in our Creative Services Department and will be available as a resource should questions/issues arise. We will have the software programs needed but the intern will need these skills:

- Graphics design
- Heavy concentration in forms, booklets
- Knowledge of: Adobe Creative Suite 6
- Above includes: Photoshop, Illustrator, InDesign, and Acrobat Pro

The best way to apply is to contact Grace Waddell, Dean of Agape University, Agape Senior
gwaddell@agapesenior.com
via email and send a resume or a cover letter outlining their skills and desires. This is an unpaid internship but AGAPE has a history of hiring high performing interns as needs arise!
