Freight Auditor Position

The job itself is an overall extension of Accounts Payable. We audit and code invoices to ensure accuracy of payment amounts to correct vendors and carriers, such as FedEx, UPS, etc. The tasks of this position require commitment and great focus on small detail. We need someone driven, particularly a business student preferably with an Accounting concentration or background. This is a full-time temp to permanent position (40 hours) with overtime expected at the end of each month, for month end closing. The salary for the temporary employee ranges from $12.00-$14.00, depending on degree and experience. We look forward to receiving resumes for review and we again appreciate all of your help with this matter.

Monica James
Freight Audit Supervisor
