HEARST Corporation Internship

You can contact Bill Robbins at Robbins, William W brobbins@hearstsc.com

This is the job information provided to me:

Ideally we would like to bring someone on board who is an accounting and/or finance student and has taken some auditing, and or has an interest in auditing and understanding of internal control(s). Good Microsoft Office and other business application skills are important, and at least some familiarity with Sarbanes-Oxley and COSO is a big plus.

Graduate vs. undergrad is not an especial consideration, but we would like someone who has good academic credentials (GPA and other); has a good work ethic and intellectual curiosity, can work well with a variety of personality types, takes direction well but is also self-motivated; and the ability to give us 40 hours a week, or at least 30, is essential – this latter should be taken into serious consideration if the candidate intends to juggle the internship workload with school commitments.

We are interested in starting someone as early as the last week of January, and would like someone who can commit to working with us for at least three months at a stretch; additional stints are always a possibility if the initial one works out well – as David Doan can attest.

Regarding the citizenship issue, I’ll just paraphrase what our HR folks sent me: “A person doesn’t have to be a U.S. citizen in order to be eligible to work in the US (but) does have to prove employment eligibility and identity to work in US – this is done via completing the I-9 Employment Eligibility Verification form and submitting acceptable documentation in accordance with US CIS.”
