Company Description: National Level Bodybuilder, Maureen Clary, maureen.us.com

Job Title: Marketing Manager

Job Description: Three main goals would be to:
(1) Obtain corporate sponsors (I already have a list to contact)
(2) Increase fan and demo base via publicity, social media, email marketing etc. and
(3) Research and put together “Maureen” market demo documentation to provide to sponsors

Qualifications: A person interested and excited about working on this project. They would need good writing and research skills and knowledge of social media and be a quick learner. It is important to have a person who keeps their word, can work independently, is a direct communicator and values the importance of time (theirs and mine) and can use their time productively. And person who thinks out of the box and doesn’t need to be micromanaged and has the ability and/or experience to complete the job.

Hours per week/pay: The 10 hour per week minimum required for the intern class is fine. The pay would be the real world challenge and experience and recommendation from me for a successful job done. (aka no cash 😊) But I would like to work out a bonus structure for each sponsor who signs on as a result of the intern’s work. If the project is as successful as I envision, there would be an opportunity to continue on as a paid employee after the intern period has been completed.

Further details: If you are interested in this position, please email me your resume. I have a more detailed plan of action how to achieve these goals and more details I can share to the right candidate. I would LOVE to start working on this August 29th.

You will find me a very easy person to talk to and work with (although extremely busy) and have been a successful small business owner for over 21 years.

Don’t wait until “everything is perfect” to contact me. Although I require high standards, I prefer a “doer” over a perfectionist or procrastinator any day. 😊
