This course requires participation in a pre- and post-semester orientation that follows the school district calendar. Contact the course instructor for specific requirements.

Course Description: Field-based internship in which teacher candidates build upon knowledge of contextual factors to plan and teach comprehensive, standards-based lessons and units including assessments designed to measure student understanding before, during, and after instruction. Candidates use student assessment data to analyze and reflect upon teaching decisions and outcomes.

Prerequisites: Completion of all core courses except for EDCO 410. Admission to Teacher Education Program.

The Education Core

The Winthrop Teacher Education Program is a developmental and clinically-based program that provides teacher candidates with opportunities to construct knowledge and develop skills through course work that is integrally linked to practical experiences in schools. Candidates learn by doing under the tutelage of expert mentor teachers and supportive university instructors and supervisors. The core courses require candidates to learn about and work with learners with diverse backgrounds and needs, including but not limited to, learners with special needs, English language learners, learners identified as gifted, and learners living in poverty. Pedagogical focus is on assessment, classroom management and the learning environment, technology, and professional learning and ethical practice. Together with content area courses, the array of experiences in schools and well-sequenced, coordinated content in the education core provides candidates in all teacher education fields the opportunity to develop the knowledge, skills, and dispositions needed for success as a teacher in 21st century schools.

Description of Clinical Component of this Core Course

Number of hours in school setting: 600 hours

Field-performance expectations: Teacher candidates engage full time as a junior faculty member in a school setting utilizing contextual factors information to implement effective classroom instruction. Candidates work closely with the mentor teacher to plan and implement differentiated learning experiences; design assessments and analyze student data; create and maintain a positive classroom climate; and engage in professional activities.

Supervision of field performance: Mentor teacher and university supervisor

Description of Course in Relation to Education Core

EDCO 402 is a synthesis of the knowledge, skills, and dispositions candidates develop throughout the Education Core. Simultaneous application of instructional, assessment, and management strategies learned and practiced in earlier courses provides the necessary experience for candidate transition into a professional educator.

Course Goals, Learning Outcomes, and Assessments

<i>Unit Standards/Elements</i>	<i>Student Learning Outcomes</i>	<i>Key Assessment</i>
CG1. Design and utilize student assessment data to guide instruction.		
US4. Assessment E1. The teacher candidate designs, selects, and implements valid, reliable, and appropriately differentiated assessments that are aligned with short and long term goals.	SLO1. Designs, selects, or modifies meaningful assessments that are aligned with lesson objectives.	Internship II Evaluation
US4. Assessment E2. The teacher candidate uses data from a variety of formative, diagnostic, and summative assessments to guide instruction, determine impact on learning, differentiate instruction, and accommodate diverse learners.	SLO2. Uses data from a variety of formative, diagnostic, and summative assessments to guide instructional planning.	Internship II Evaluation
	SLO3. Assesses student learning during instruction by using a variety of formative assessment strategies with established performance criteria.	Internship II Evaluation
CG2. Plan, deliver, and assess standards-based instruction that meets diverse learner needs.		
US5. Instruction and Learner Engagement E1. The teacher candidate utilizes knowledge of pedagogical content and developmental science domains to plan and implement learner-centered lessons aligned with curriculum goals and standards.	SLO4. Plans standards-based lessons in accordance with the requirements of the discipline, including learning objectives that are measurable, appropriate, and align with the standards.	Internship II Evaluation
US1. Diverse Needs of Learners E3. The teacher candidate plans and implements differentiated learning experiences that address diverse learner needs.	SLO5. Plans developmentally appropriate and differentiated instruction to address diverse learning needs.	Internship II Evaluation

Course Requirements

Required Texts and Materials

- ***Developing Teachers as Educational Leaders: Responsibilities, Policies, and Practices for the Year-Long Internship*** - Available on-line at: <https://www.winthrop.edu/coe/rex/handbooks-and-forms.aspx>
- **SLL** account (Available for purchase online or at the Winthrop Bookstore.)
- ***Initial Teacher Preparation Unit Standards Framework***. In initial teacher preparation at Winthrop University, teacher education candidates must demonstrate knowledge, skills, and dispositions that enable them to address the needs of a diverse group of learners. Interns must provide evidence that their teaching results in learning for all students. To this end, interns will reflect on objectives of lessons, develop appropriate lesson plans to address learner needs and analyze their students' work samples to plan for future learning. In addition, interns demonstrate progressing skills in the areas of learning environment, technology, assessment, instruction and learner engagement, literacy, and professional learning and ethical practice. Further information about the Initial Teacher Preparation Unit Standards is available at the following web address: <https://www.winthrop.edu/coe/conceptual-frameworks-and-dispositions.aspx>

Assignments

Please see the internship handbook, *Developing Teachers as Educational Leaders: Responsibilities, Policies, and Practices for the Year-Long Internship*, to find a description of the intern's responsibilities. Interns should follow all safety protocols and procedures of their host school/district, including the district's technology policies regarding acceptable use and security.

Teacher Candidates should initially use their content area specific templates when lesson planning. The supervisor and mentor teacher will determine when a candidate is ready to be released to a modified version of planning that is required by the host school/district. Program area specific templates should always be used when planning for any announced observation (supervisor, mentor, and/or site-based observer).

Lesson plans should be submitted at least two school days prior to teaching (unless otherwise authorized by the mentor teacher and the university supervisor) so plans may be discussed and modified, if needed. If lesson plans are submitted late, the mentor teacher and/or university supervisor may decide not to allow the intern to teach, thus jeopardizing the success of the internship. Lesson plans should be available either in hardcopy or electronically for supervisor and mentor review at all times. If sharing electronically, the intern will share them through Google Drive, Dropbox, OneDrive, or any other options that work for your supervisor and mentor.

Over the course of the semester, the university supervisor will complete a minimum of three summative observations of lessons taught by the Internship II teacher candidate, the mentor will complete six formative observations, and a site-based observer will complete two observations.

Classroom observations are to be conducted in person if the teacher candidate is interning in a face-to-face classroom experience. If supervisors need additional observational data, they may view and evaluate video of lessons taught by the candidate. Midterm and final summative conferences are to be conducted in person. Pre-observation and post-observation conferences may be conducted in person and/or virtually.

Successful completion of EDCO 402 requires achieving the acceptable level on all domains of the Internship II evaluation. This not only includes performance in the classroom but meeting the requirements of professional responsibilities/activities both at the host school and on-campus.

Grading System

Students are evaluated using the Internship Midterm and Final Evaluation Reports. Results are conveyed to students during mid-term and final evaluation conferences with the University supervisor and mentor teacher. Copies of the Internship Midterm and Final Evaluation Reports are located on the Field and Clinical Experience website: <https://www.winthrop.edu/coe/rex/handbooks-and-forms.aspx> . Students receive a grade of Satisfactory (S) or Unsatisfactory (U) for the internship.

Class Attendance Policy for EDCO 402

The attendance policy is described on page 21-22 of the handbook, *Teachers as Educational Leaders: Responsibilities, Policies, and Practices for the Year-Long Internship* (available on the Office of Field and Clinical Experiences website). We expect teacher candidates not to miss any days from the internship, however, it is understood that extenuating circumstances may arise that prohibit the teacher candidate from participating on their normal schedule in the internship (example: COVID-19, flu, etc.). In the event of an extenuating circumstance, the teacher candidate communicates with the supervisor, who will decide on a case-by-case basis how the intern will make up the time missed in the field.

COVID-19 Statement:

The health and safety of the campus community is Winthrop's top priority. As socially responsible members of this community, everyone is expected to engage in daily health self-monitoring and to stay home (residence hall or off-campus housing) from on-campus class, work, or activities if they begin experiencing any COVID-related symptoms. Please do not attend class if you have a fever or any signs of the COVID virus, do not attend class if your roommate or someone you have close contact with acquires the virus, and be respectful of others' desire to remain COVID-free. Masking on campus remains optional but strongly encouraged, especially in indoor settings around others. Use the Patient Portal COVID-19 form to report illness or exposure and upload the positive test, if relevant. Students who violate WU guidelines will be asked to comply. Continued failure to comply may result in referral to the Dean of Students Office as a student conduct violation.

COVID-Related Absence

Students should contact Health Services regarding a positive test, close contact, or enhanced COVID-like symptoms. Any student who has either tested positive, has COVID-like symptoms, or has close contact with someone who has COVID, must contact Health Services. Students should log in to the [Patient Portal](#) to complete a C19 form and upload the positive test, if relevant. Health Services will communicate with the student on what steps to take next, and if need be, the Dean of Students Office will receive absence verification for required isolation and quarantine. Students who verify their absences through the Dean of Students Office often minimize any academic impact caused by missed class time. Students retain a responsibility to communicate with instructors regarding missed work, and complete assignments in a timely manner as they are able. Regular communication with faculty is expected so that student progress in the course is not negatively impacted. Health Services will only provide dates of absence, not medical information. Please note, residential students who test positive must follow their personal COVID Quarantine and Isolation Plan.

In person classes generally will not have a remote option; students should not expect to have remote access to the class lecture or discussion, even in the case of absence.

Accessibility Policy

Winthrop University is dedicated to providing equal educational opportunities for all students. Interns with diagnosed disabilities who seek reasonable accommodations must notify the Office of Accessibility at 803/323.3290. Teacher candidates with disabilities should note that the internship may necessitate consideration of worksite accommodations that differ from those used in a typical university classroom setting. Under the Americans with Disabilities Act, reasonable accommodation is a change in the work environment or in the way the job is usually done that enables a person with a disability to perform the job effectively. Interns with disabilities must meet the requirements of the internship experience and exhibit adequate performance. Thus, student interns with disabilities should understand their accommodation needs in relation to the expectations of their teaching internship. Teacher candidates with disabilities who are participating in internship should discuss potential needs and concerns with the Office of Accessibility.

Final Exam Date and Time

The final assessment is the Internship II Final Evaluation Report. The Final Evaluation Report, along with supporting documentation, is due in SLL by the instructor on or before the date set by the Director of the Office of Field and Clinical Experiences. (May 4th, 2023).

Student Code of Conduct

As noted in the Student Conduct Code, "Responsibility for good conduct rests with students as adult individuals." The policy on student academic misconduct is outlined in the Student Conduct Code Academic Misconduct Policy in the Student Handbook online.

<https://www.winthrop.edu/uploadedFiles/studentconduct/StudentConductCode.pdf>

Syllabus Change Policy

The syllabus reflects expectations for the course; however, the instructor may find it necessary to make changes in the syllabus after the course begins. In such cases, students will be notified accordingly.
