When the previous requirements are met, students should submit information to the online Teacher Education Program Application System on the SAS site that includes:

- ☐ a disclosure statement concerning criminal/unethical conduct including any judicial or disciplinary action taken while enrolled at Winthrop University or another institution of higher education,
- ☐ a disposition self-evaluation and reflection.

The next deadline for submission of Teacher Education Applications is April 1, 2019. Review the videos and information in the Bb Organization "Teacher Education Admission" for the latest expectations on admission to the program. Typically undergraduate candidates apply by the end of the second year.

Also note that EDUC 191 will be offered this summer for individuals planning to meet the testing requirement before August. The course does not require traditional tuition and instead a \$65 fee is assessed to cover study materials with all expectations completed online. Many students find that completing requirements in the summer is easier to manage. Undergraduate students in traditional certification programs must meet the testing requirement before the start of classes the semester in which they are enrolled in EDCO 201. If this requirement is not met by that time, students will be administratively enrolled immediately after the add/drop period. Test scores typically take at least two weeks to arrive at Winthrop. If you have not met the testing requirement and plan to enroll in EDCO 201 this fall, we strongly recommend you take the chosen test no later than July 1 to ensure ample processing time.

Please contact Student Academic Services if you have questions after reviewing the videos in the Teacher Education Admission Bb Organization
