Purpose: The Early Clinical Field Rubric provides an assessment instrument for the partner host teacher to provide input on teacher candidate field performance; more specifically, developing skills in instruction, environment, and professionalism.

Description: The Early Clinical Field Rubric addresses three domains: instruction, environment, and professionalism. The associated outcomes are aligned with the final capstone assessment, yet crafted as the beginning skills that will lead to eventual mastery.

Scoring: While the specific point value and weighting of the Early Clinical Rubric may vary by course, teacher candidates must successful pass the rubric (at least 80% of outcomes scored at or above "Meets Expectations") in order to pass the course.

Candidates score at one of three rubric levels: exceeds, meets, or below expectations. **Exceeds Expectations** is typically characteristic of the **top 8-10%** of candidates. Host teachers should include evidence in the comment section beneath the specific competency if the candidate is displaying these actions. If candidates perform **Below Expectations** on any competency of the rubric, host teachers should add specific comments on the rubric identifying recommended areas for growth.

To begin scoring, click on **"Detail"** in the right panel to expand the rubric. **Please disregard the points affixed to this rubric, as they do not reflect the points in the course syllabus. Please read the scoring criteria and choose the one that most accurately describes the candidate.**

When scoring is complete, click **SUBMIT**.

Teacher Candidate: Upon completion of your field experience requirements, submit a short statement (this can be a list) describing your overall achievements. Include **two specific skills you developed/pieces of knowledge gained** AND **one goal for future field work**. Submit your confirmation to signify to your host teacher to complete your evaluation.

Field Work Reflection*

I learned a great deal from this experience. 1) Classrooms include many types of learners and 2) Teaching is hard work. My goal is to learn more about differentiated instruction.

- Now the completed rubric goes to the Winthrop instructor to review. The instructor may contact you if questions arise about a specific rubric level selected or comments included (or possibly need comments that are missing). We hold candidates to high expectations for field performance and since the assessment is part of the course grade, the instructors may need to discuss an evaluation before it is final. The assessment will show as "Done" after the Winthrop instructor submits.
