

SERVICE LEARNING PROPOSAL

Winthrop University Honors Program

This form must be submitted prior to conducting the work necessary for receiving service learning credit. There are three options for satisfying this requirement: 1) successfully completing a service learning course or independent study project where you receive course credit; 2) completing a service learning project through the Office of Career Development and Service Learning located in Crawford; or 3) being a member of SIFE, Close Scholars, Teaching Fellows or AmeriCorps or participating in the Washington Semester Program. On the back of this form are courses previously taught that have service learning components (taught by that professor), but you must check ahead of time with that professor to see if that is currently the case. This may change on a semester basis.

Name of student _____

Project Supervisor/Professor _____

Project Title/Class _____

Description of Service Learning Project (Please address the connection to the course, hours required for the service component, method of reflection and the population served):

If you are satisfying your service learning requirement by participating in the following, please check which one:

AmeriCorps Close Scholars SIFE Teaching Fellows

Washington Semester
