

## Quick Information About Using Ozobot Evos

### What makes the Evo model different from the Bit model?

The Evo has:

- Sounds
- Lights
- Object detection and sensors
  - If you place your hand in front of the Ozobot, it stops
  - If you place your hand behind the Ozobot, it moves forward a little faster
- The ability to communicate with friends
- Send friends chats and ozojis
- Bluetooth capability
- Marvel Avengers skins

### What apps to use the with Ozobot Evo

- Ozoblockly- <https://ozoblockly.com/>
  - Create a program using an iPad
  - Place the Evo on the white dot to load the program on to the Evo
  - Watch the Evo as it executes the program
- Evo- <https://ozobot.com/evo-app>
- Create an account in Ozoblockly- this will be the same username and password needed for the Evo app

### Other info

Ozobot Evo lasts for about 40-50 minutes of play. It charges for about 40 minutes

Since the Ozobot Evo works via the sensors on the bottom of it, please sure NOT to run it on a carpet.

Be sure that the surface area it is running on is clean.
