Activate the High Contrast Color Setting

Overview

This tutorial will show you how to activate the **High Contrast Color Setting**. The High Contrast Color Settings overwrites Blackboard themes and styles to deliver a more accessible user experience for individuals with visual impairments by increasing the contrast between backgrounds, icons, and text.

**Before Logging in to Blackboard**

**Quick Steps**

Blackboard Login page > High Contrast Icon > “Yes” option > Submit

**Step 1**

Click on the High Contrast Icon [1] on the Blackboard Login page.

**Step 2**

The High Contrast Setting page will open in a new window. Select the radio button, "Yes, I will use Operating System styles to overwrite Blackboard styles" [2].
Step 3

Click the Submit button.

After Logging in to Blackboard

Quick Steps

Global Navigation Menu > Settings > High Contrast Setting > “Yes” option > Submit

Step 1

Open the Global Navigation Menu by using the dropdown arrow following your name.

Step 2

From the Global Navigation Menu, select the Settings tab [3].
Step 3

Click *High Contrast Setting [4]*.
Step 4

The High Contrast Setting page will open in a new window. Select the radio button, "Yes, I will use Operating System styles to overwrite Blackboard styles" [5].
