Enable Grading on a Blog

Overview

This tutorial will explain how to **Enable Grading on a Blog**.

Quick Steps

Control Panel > Course Tools > Blogs > Options Menu > Edit > Grade Settings > Grade

Step 1

To Enable Grading on a Blog, you must first access the Blogs tool. The Blogs tool can be found in the *Course Management* navigation pane beneath the *Control Panel* section. Click on *Course Tools* [1], and then click on the “Blogs” option [2].

Step 2

On the Blogs page, open the Options menu for the Blog you want to grade by clicking on the Options Menu arrow [3] that follows the Blog’s title and select “Edit” [4].

![Blog Options](image2)
Step 3

In the Grade Settings section, select the “Grade” option using the radio button in the Grade Blog row. Specify the number of Points possible using the Points possible field. Points possible will apply to one or more entries made by a user on the blog topic.

After you enable grading, a column is created automatically in the Grade Center. It is permanently gradable, and you cannot change the setting to “No grading” afterward.

Step 4

Optionally, check the checkbox for “Show participants in ‘needs grading’ status.” You can then use the drop-down list to select the number of entries required for a student to qualify for a Needs Grading status in the Grade Center.

Example: If you choose three entries from the drop-down list and a user saves two entries, the In Progress icon appears in the Grade Center cell and the Blog until the specified number of entries (3) is met. Once met, the Needs Grading icon will appear, instead.

If you check the Grade Blog option and do NOT check the “Needs Grading” checkbox in this section, the Needs Grading icon will not appear in the Grade Center and entries will not appear on the Needs Grading page.

In the Due Date row, select a Due Date and Time. Graded posts made after a due date are marked LATE on the Grade Details page in the Grade Center and the Needs Grading page.

In the Associate Rubrics row, you can also Associate a Rubric with the Blog.

Step 5

When you have finished completing the settings, click the Submit button.
