RE: Suspension Policy Study

The committee has concluded its study and arrived at several recommendations.

STUDY
The committee’s investigation of thirty institutions that vary in size, location, and funding revealed that Winthrop’s suspension policy is in line with that of the majority of the institutions studied. The committee also polled colleagues and discovered that the majority support the policy as written. In addition, the committee asked the registrar about the letter sent to students immediately after they have been academically suspended and discovered that the letter directs students to contact the registrar’s office to discuss options. Finally, we examined the catalog to ascertain what those options were. The catalog lists three options which are as follows:
1) Sit out the suspension
2) Petition to be readmitted due to extenuating circumstances such as illness or death of a family member
3) Petition for a variation to a university-wide regulation (such as not accepting transfer credit earned while a student is suspended)

Options 2 and 3 require the student to submit a formal typed petition and documentation to the Committee on Undergraduate Petitions.

RECOMMENDATIONS
Based on our study, the committee recommends that Winthrop’s suspension policy remain unchanged. We secondly recommend that the registrar include the language of the above options within the letter itself sent to the student, highlight those options for petition, and enclose a copy of the university’s options as stated in the catalog. We finally recommend that the Committee on Undergraduate Petitions continue its policy to consider carefully student petitions that either 1) document extenuating circumstances, or 2) demonstrate mature consideration and a clearly thought out plan from a student who asks for permission to apply credits earned at another institution during a suspension period to his or her Winthrop degree.
