Minor-FILM	Mass Communication	New minor	Concern that there was insufficient justification for creating a new minor and 4 new supporting courses solely for the minor

NOTE: We will be enforcing the 500/600 level guideline (500-level for graduate or undergraduate, 600-level for graduate students only). If you are making a change to an old course or adding a new course that does not fit this model, you must have a reason for an exemption (saying this is the way it always has been is not a reason to perpetuate error).
