

## A MESSAGE from the University President...

Welcome to Winthrop! I am so very proud to have the opportunity of leading such a distinguished community of learners who make Winthrop such a unique university experience.

What sets Winthrop apart is that every faculty and staff member is dedicated to helping our students achieve success, however you may define it. Your first year at Winthrop is designed to help you adjust to the exciting world of higher education. As you proceed on your journey of personal discovery you will find that, along with your fine academic preparation, Winthrop is helping you develop as a leader and an engaged citizen.

You will be challenged to learn more than you thought possible, be provided many opportunities to get involved in activities on campus, and inspired to participate actively in public service. This well-rounded educational experience has prepared Winthrop alumni to assume prominent positions in their fields of choice and to become leaders in their communities.

Now, I urge you to take full advantage of all that Winthrop offers, including getting to know the students with whom you live and learn. In my experience the more you rely on one another, the more likely you are to achieve all you set out to do. And in helping each other you will have the chance to benefit from the experience and perspectives of students from backgrounds different than your own. These are the people who, bound together by your Winthrop experience, will become your lifelong friends.

So make the most of your time at Winthrop.

Go Eagles!

Dan Mahony  
President
